On looking for the piece of quartz the next day he found it is the dynamo, and, to his surprise, the gold in the quartz had been melted and had run to one side of the rock, forming a beau tiful button. He immediately instituted a series of experiments and succeeded in and copper can be instantly smelted from concentrations by a powerful electric shock, almost equaling in intensity a stroke of lightning. The successful application of this process to other ores, as lead or antimony, is also expected.

ANOTHER CASE.

EAST POINT, GA., April 2, 1884. My wife has been afflicted with a terrible form of Scrofula for over ten years. Physicians exhausted their skill, and numerous patent medicines were used without benefit. Her condition grew worse-her appe tite failed, attended with debility, emaciation, falling out of the hair and a frightful breaking out of the skin. Her bones became very much cost of ordinary co-operative insurdiseased and painful (some calling it white swelling), with sleepless nights and a general feeling of horror. Some friend said that B. B. B. would cure her. I procured it and placed her upon its use, and to the utter astonishm of all who knew her the recovery was rapid and complete. It acted as a powerful tonic, gave her a splendid appetite and acted upon the kidneys. A few bottles did the work The action of B. B. B. was decidedly quick, and the medicine cost but little. I advise my friends to use it as a blood purifier. Yours truly, R. M. LAWSON.
